

ITF COMMENDED FOR BUILDING CAPACITY OF THE NATION'S WORKFORCE

The Scientific Equipment Development Institute (SEDI), Minna has commended the Industrial Training Fund for its immense contribution to the capacity development of the workforce in Nigeria.

The Managing Director of the Institute, Nda Liman who stated this when he received Management of Minna Area Office recently described the ITF as a reputable organization that has greatly contributed to capacity building nationwide.

Mr. Liman who solicited for the support of ITF by recommending trainees to the Centre on technology development also expressed the willingness of the Centre to collaborate with the ITF on training needs assessment.

He pledge to pay the outstanding course fees owed the ITF by the Centre as soon as funds were available

Speaking earlier, the Area Manager of Minna Area Office, Mary Katugwa introduced the ITF which she said was established in 1971 with the mandate to generate a pool of indigenous skilled manpower sufficient to meet the needs of both the public and private sectors of the Nigerian economy.

The visit, she said was to strengthen the cordial relationship existing between the ITF and SEDI, provide a platform to explore areas of possible collaboration between the two organisations and discuss training proposal and secure possible approval.
